Nanang Angga Putra, 190102158, (2023), The development of Thematic Learning Videos Based on Sumbawa Local Wisdom to Improve Learning Interests of Fourth-Grade Student at SD Negeri Kelanir West Sumbawa, Thesis, Elementary School Teacher Education Study Program, Faculty Of Education (FIF), Hamzanwadi University.

This research aims to develop thematic learning videos based on Samawa local wisdom to Improve learning interests of fourth-grade students at SD Negeri Kelanir West Sumbawa, on the subject of theme 8, sub-theme 2 of learning 1. With a total of 14 students.

This research is a type of R&D (development) research with the ADDIE development model consisting of 5 development stages, development stage, implementation stage, and evaluation stage, The data obtained in this study are qualitative and quantitative data. Data collection techniques and instruments used questionnaires from the validation of media experts, language experts, material experts, and the results of students' *pretest* and *posttest* tests. The results of the media expert's feasibility assessment obtained a score of 72 in the very good category, the language expert's assessment obtained a score of 36 in the very good category, and the results of the material expert's assessment obtained a score of 92 in the very good category. Thus, the learning videos are appropriate for use to obatain data in field trials.

Based on the results of the student *pretest* and *posttest* descriptive statistics, it showed that the average score before treatment *(pretest)* was 47.14 in the uninterested category, and after treatment *(posttest)* the score was of 78.57 in the interested categoru. The hypothesis testing using the Paired Sample T-test showed Sig (2-taeled) <0.05 or 0.000 <0.05. with normal distribution. Based on this result, it can be assumed that the use of learning videos based on Sumbawa local wisdom is very influential in encouraging the learning intwrest of fourth grade students at SD Negeri Kelanir on the subject lesson of theme 8, sub-theme 2 of learning 1.
