

ABSTRACT

Susilawati, NPM: 190102032. "A Comparative Study of Team Quiz Strategy with the Power of Two Strategies for Student Learning Activities in Fourth Graders' Civics Learning at SDN 4 Lendang Nangka T/ 2022/2023"

This study aims to find out how the Quiz Team strategy compares with the Power of Two Strategies towards student learning activities in Grade 4 Civics learning at SDN 4 Lendang Nangka T/A 2022/2023 on the subject of diversity in Indonesia. The type of research used in this research is quantitative research with a quasi-experimental research approach with a non-equivalent control group design. The populations in this study were 95 students. The sampling technique in this study was simple random sampling of 24 students. Data collection techniques in this study used observation, interview and questionnaire techniques or questionnaires in the form of 18 questions. Data analysis in this study used descriptive statistical analysis and inferential statistics with the SPSS version 22 program. The results showed that there were significant differences in student learning activities that taught using the Quiz Team strategy and The Power of Two on diversity material in Indonesia.

Keywords: *Learning Activities, Team Quiz Strategy, the Power of Two Strategies*
